

Fast, Accurate U.S. and International Address Auto-completion

Get correct addresses 100% of the time for the U.S. and more than 240 countries through Express Entry. Express Entry is a free auto-completion tool that integrates easily into CRM and Call Center applications. It offers pre-validated addresses, speeds e-commerce checkout, and improves data quality.

Express Entry®

Enter full addresses in 50% fewer key strokes

Express Entry for domestic and international addresses boosts website conversions by utilizing a type-ahead search functionality that makes it easier for users to enter addresses with fewer keystrokes. Why type 35 keystrokes when you can type 17 or fewer? Begin typing an address into a search bar and Express Entry will complete your query with a verified address, including city, state and ZIP Code for U.S. addresses or locality, administrative area, and postal code for international addresses.

Express Entry is a Web Service that can be integrated into customized applications and platforms and does not require any additional IT resources to maintain. In addition to the ease of using Express Entry as a Web Service, Webmasters and site developers can download JavaScript code and use in e-commerce websites and guestbooks.
